Bi-fold Doors

# BI-FOLD DOORS

You don't need bricks and mortar to transform the ordinary into a chic new living area that creates a glorious feeling of space! Artemis Bi-fold Doors open up a new world of opportunities. Stylish, bright and practical, they remove the barrier between your inside and outside areas, letting natural light flood into the home and transforming that much loved garden, patio or decked area into a stunning, seamless and tranquil extension of your home; a place to entertain, a place to relax, or simply a place to enjoy the sights and smells of the great outdoors.

- **Strong, thermally broken, aluminium profile**
- **2 to 7 door leaves**
- **Leaf widths from 500-1030mm**
- **Multiple configurations**
- **Smooth, easy operation**

## STRENGTH AND DURABILITY

Manufactured from a slim but very tough and durable 70mm aluminium profile system for maximum strength, Artemis Bi-fold Doors are precision made to ensure they retain their colour, shape and performance throughout the years. The slim aluminium profile, combined with large glazing areas, allows for maximum light exposure and offers extended views of the garden and surrounding area.

## FLEXIBLE CONFIGURATIONS

Artemis Bi-fold Doors are built to exact size and specification, with 2 to 7 folding leaves which can be stacked inside or outside, to the left or right, or split stacked on both sides and are available with a single or double master-door which act as standard entrance doors. Leaf sizes can range from a minimum width of 500mm to a maximum width of 1030mm.

## SMOOTH, EASY OPERATION

Door leaves are fitted to an advanced double-roller track system which, together with 4 stainless-steel bogie wheels per leaf, ensure smooth and consistent operation with minimal effort. A range of threshold options are available, including low threshold options designed for disabled access and suitability for interior use.

# QUALITY GUARANTEE

Artemis Bi-fold Doors are backed by a 10 year performance guarantee.

- **Advanced weather tight seals**
- **Smooth running free glide system**
- **High performance double or triple glazing**
- **Finger safe gasket technology**
- **Toughened or laminate glazing options**

## SECURITY

With such large openings, optimum security is paramount to provide total peace of mind. Artemis Bi-fold Doors are manufactured from high-performance 70mm aluminium profile systems for maximum strength, durability and mechanical performance and are fitted with the latest in high performance locking and security technology to protect your home. Multi-point locking systems and advanced gears are fitted as standard to all folding leaves of the bi-fold door.

## ENERGY

The Artemis Bi-fold range has been designed to meet the sustainability demands of the current climate and to keep your home warm in winter and cool in summer. Artemis doors are fitted with advanced 28mm or 32mm double or triple glazed units for outstanding energy performance. High-performance Soft Coat glass is fitted as standard; helping to reflect internal heat back into the home whilst transmitting solar energy from the outside. The multi-chamber frame and thermal breaks within the profile help to further reduce energy loss. With triple glazing, U-values as low as 1.6 W/m<sup>2</sup>K can be achieved.

## SAFETY

Artemis Bi-fold Doors are designed with a range of safety features to keep the whole family safe, including anti-trap finger gaskets between leafs, anti-slam features, pop-out handles, low threshold options for safe access and an advanced double-track roller system for enhanced stability, smooth running with minimal effort. For enhanced safety, toughened or laminate options for your glazed units can be selected.

## STYLE AND FINISHES

All our bi-fold doors are manufactured to your exact size and style requirements, so whether you're looking for a contemporary or traditional look and finish, Artemis Bi-folds are designed to create the look you want - number of leafs, leaf width, opening and stacking configuration, master door options, colours, hardware and furniture, glazing - endless possibilities to help you create your perfect inside / outside living space. Artemis Doors feature a soft line finish, offering a classic aluminium appearance.

### HARDWARE AND FURNITURE

A range of bespoke door furniture options are available to complement your door and ensure a hassle-free operation. Door furniture is available in black, white or silver. Classic lever/lever handles are fitted to master door panes and 'pop out' handles, which sit flush against the frame surface to facilitate multi-leaf stacking, are fitted to sliding panes as standard.

### COLOUR OPTIONS

The choice of colours with Artemis Bi-fold Doors is huge. Choose from one of our standard colours (white (RAL 9910), black (RAL 9011), cream (RAL 1015), charcoal grey (RAL 7016) and silver grey (RAL 7035)) for a classic look or, for a more contemporary look, your doors can be powder-coated in any RAL colour. You can also choose to have different colours inside and outside.

### THRESHOLDS

To facilitate that seamless transition between indoor and outdoor areas, a range of threshold options are available including standard, low, and room divider thresholds

- Made to your size, style and finish
- Premium hardware and furniture
- RAL colour-coated finish
- coloured on one or both sides
- pop-out T-handles on sliding panes.
